

RGB LED Floodlight Wiring Diagram

RGB LED Floodlight measurements

Red LED = 550mA(Red light)/150mA(White light) at 16.8V.

Green LED = 550mA(Green light)/150mA(White light) at 24.0V.

Blue LED = 550mA(Blue light)/185mA(White light) at 24.0V.
